**Author:** Atkins, Richard Kenneth  
**Title:** Peirce's Critique of Psychological Hedonism  
**Year:** 2015  
**Journal:** British Journal for the History of Philosophy  
**Volume:** 23  
**Issue:** 2  
**Pages:** 349-367  
**Keywords:** Desire, Self-control, Hedonism  
**Abstract:** Psychological hedonism (PH) is the theory that all of our actions are ultimately motivated by a desire for our own pleasure or an aversion to our own pain. Peirce offers a unique critique of PH based on a descriptive analysis of self-controlled action. This essay examines Peirce's critique and his accounts of self-controlled action and of desire.
