**Abstract:** This year we celebrate the centenary of the death of Charles Sanders Peirce (1839-1914), considered one of the most important figures in the history of American thought. It is worth on this anniversary to publicize the main lines of Peirce's philosophy. His texts, of great depth and richness can certainly provide some of the most important problems of the century. Peirce's philosophy teaches to trust in a ratio of relative value, fallible, but humane and effective. Peirce's ideas transcend a particular historical moment and become vital clues for philosophical reflection of our times.
