**Type:** Article in Journal  
**Author:** Tiercelin, Claudine  
**Title:** The Contemporary Relevance of Peirce's Views on the Logic and Metaphysics of Relations  
**Year:** 2016  
**Journal:** Argumenta  
**Volume:** 2  
**Issue:** 1  
**Pages:** 125-138  
**Keywords:** Logic of Relations, Metaphysics of Relations, Dispositional Realism, Realism  
**Abstract:** Independently of Frege or Russell, C.S. Peirce made major contributions to the history of the logic and metaphysics of relations. After presenting his metaphysical interpretation of relations and his emphasis on the reality and irreducibility of relations, the paper shows how Peirce's views are tied to the dispositional realism he defends within a scientific realistic metaphysics, and why they are still relevant for assessing the logical and ontological status of relations, and insightful for the metaphysical agenda to pursue today.  
**Language:** English
