Type:	Manuscript
Author:	Peirce, Charles Sanders
Title:	On Existential Graphs
Manuscript Id:	MS [R] 484
Year:	1898
Abstract / Description:	**Robin Catalogue:** A. MS., n.p., 1898, pp. 1-28; 11-15, 20. Application of topology to logical graphs, followed by a development of the constitutive conventions of existential graphs. Remarks on the equivalence between existential graphs and familiar (ordinary) language. Elementary rules of illative transformation deduced from basic rules of existential graphs.
