Title: The Iconic Logic of Peirce's Graphs

Author: Shin, Sun-Joo

Year: 2002

Publisher: Bradford Book

Abstract: At the dawn of modern logic, Charles S. Peirce invented two types of logical systems, one symbolic and the other graphical. In this book Sun-Joo Shin explores the philosophical roots of the birth of Peirce's Existential Graphs in his theory of representation and logical notation. Shin demonstrates that Peirce is the first philosopher to lay a solid philosophical foundation for multimodal representation systems.
