**Title:** Semiotics, Communication and Cognition

**Category:** Book Series

**URL:** <http://www.degruyter.com/view/serial/41472?rskey=6ltPID&result=8>

**Description:** The series focuses on the state of contemporary semiotics and its current applications. It is intended to produce a number of concise interventions in semiotics, by which is meant studies of discrete areas of nature and culture that are interrogated using sign theory (in particular, as derived from the example of Peirce, Saussure, Sebeok, Lotman, von Uexküll, Greimas, Eco).
