Category: Academic Meeting

Title: Dewey and the Cognitive Sciences

Description: Pragmatism is experiencing a resurgence, especially among scholars interested in the cognitive sciences. There is a burgeoning neuropragmatic movement, and prominent figures in embodied cognitive science recognize the relevance of pragmatism. This conference will attend specifically to the pragmatic philosophy and functional psychology of John Dewey and cognitive science.

Date: 15/10/2015

Place: American University in Cairo, Cairo, Egypt.
